

## **Landscape Architecture – Entry Level**

**Emmons & Olivier Resources, Inc. (EOR)** is a design and environmental consulting firm that specializes in: WATER (watersheds + water resources), ECOLOGY (ecosystems + natural resources) and COMMUNITY (civil engineering, landscape architecture + planning). We have an exciting opportunity for a candidate eager to gain foundational experience while working on innovative projects.

### **Job Status:**

Full or Part-Time Options

**Location:** Oakdale, MN

### **Description/Responsibilities:**

As part of a passionate multidisciplinary design team opportunities will likely include preparing preliminary & construction documents, marketing assistance, graphic illustration, writing support, and varied assistance to Landscape Architects and other disciplines within the firm. Candidates must possess the following skills:

- Passion for the environment and design
- Strong writing and communication expertise
- Minimum of 1 year cumulative related professional experience
- AutoCAD & plan set production
- Adobe Creative Suite, SketchUp (or other 3D modeling software)
- Hand rendering graphics

### **Education/Experience requirements:**

Preferred candidate has recently completed an accredited landscape architecture degree.

### **To Apply**

Qualified candidates should e-mail a letter of interest, résumé (including 3 references with current contact information) and example work to Susan Nelson ([snelson@eorinc.com](mailto:snelson@eorinc.com)). Highlight any other relevant skill set(s) you possess in the cover letter. Please visit our website at [www.eorinc.com](http://www.eorinc.com) for further information on our company, services, and projects.

Closing Date: September 14, 2017

EOR is an Equal Opportunity/Affirmative Action employer.
